

Yilie Huang

Assistant Professor, Department of Applied Mathematics
The Hong Kong Polytechnic University, Hong Kong
yilie.huang@polyu.edu.hk
<https://yiliehuang.github.io>

RESEARCH INTERESTS

- Reinforcement Learning and Machine Learning
- Mathematical Finance, Financial Engineering and FinTech
- Diffusion Models for Generative AI
- Stochastic Control and Applied Probability

EDUCATION

Columbia University Sept 2019 - Dec 2024
Fu Foundation School of Engineering and Applied Science USA
Doctor of Philosophy in Industrial Engineering and Operations Research
Advisor: Xunyu Zhou
Dissertation: *Reinforcement Learning for Continuous-Time Linear-Quadratic Control and Mean-Variance Portfolio Selection: Regret Analysis and Empirical Study*

Columbia University Sept 2017 - Dec 2018
Fu Foundation School of Engineering and Applied Science USA
Master of Science in Operations Research
Advisor: Xunyu Zhou

Zhejiang University Sept 2013-Jul 2017
Chu KoChen Honors College China
Bachelor of Science in Mathematics and Applied Mathematics (Honors Program)

The University of Hong Kong Sept 2015-May 2016
Faculty of Science Hong Kong
Exchange student

CFA Institute Since Feb 2022
CFA® (Chartered Financial Analyst) charterholder

ACADEMIC POSITIONS

The Hong Kong Polytechnic University Jun 2026 - Present
Department of Applied Mathematics Hong Kong
Assistant Professor

Columbia University Jan 2025 - May 2026
Fu Foundation School of Engineering and Applied Science USA
Postdoctoral Research Scientist in Industrial Engineering and Operations Research

- Formulated model distillation in diffusion models as an optimal control problem, using RL to learn provably efficient adaptive timestep policies that accelerate sampling and enhance fidelity without modifying the backbone.

- Developed randomized exploration methods for high-dimensional stochastic control, offering model-free alternatives when analytical solutions are unavailable and classical dynamic programming becomes computationally prohibitive.

RESEARCH SUPPORT

HK PolyU Start-up Fund under the Strategic Hiring Scheme (SHS),
Principal Investigator

2026 - 2029

RESEARCH PAPERS

Publications

Huang, Y. & Zhou, X. (in press). Data-Driven Exploration for a Class of Continuous-Time Indefinite Linear–Quadratic Reinforcement Learning Problems. *IEEE Transactions on Automatic Control*. Accepted as a Full Paper; tentatively scheduled for February 2027.

Huang, Y., Jia, Y., & Zhou, X. (2025). Sublinear Regret for a Class of Continuous-Time Linear–Quadratic Reinforcement Learning Problems. *SIAM Journal on Control and Optimization*, 63(5), 3452-3474.

Huang, Y. (2025). Continuous-Time Reinforcement Learning for Asset–Liability Management. In *Proceedings of the 6th ACM International Conference on AI in Finance*, 360-368.

Huang, Y., Jia, Y., & Zhou, X. (2022). Achieving Mean–Variance Efficiency by Continuous-Time Reinforcement Learning. In *Proceedings of the 3rd ACM International Conference on AI in Finance*, 377-385.

Preprints

Huang, Y. & Zhou, X. (2026). Amortized Guidance for Image Inpainting with Pre-trained Diffusion Models. Under review.

Huang, Y., Tang, W., & Zhou, X. (2026). ART for Diffusion Sampling: Continuous-Time Control and Actor-Critic Learning. Under review.

Huang, Y., Tang, W., & Zhou, X. (2026). ART for Diffusion Sampling: A Reinforcement Learning Approach to Timestep Schedule. Under review.

Huang, Y., Jia, Y., & Zhou, X. (2024). Mean–Variance Portfolio Selection by Continuous-Time Reinforcement Learning: Algorithms, Regret Analysis, and Empirical Study. Under minor revision, *Management Science*.

PRESENTATIONS

Invited Talks

INFORMS Annual Meeting (San Francisco)	Nov 2026
Mathematical Finance Colloquium (USC, Los Angeles)	Oct 2026
International Workshop on Probability Theory and Stochastic Analysis (Weihai)	Aug 2026
Invited Seminar at the School of Control Science and Engineering (Shandong University, Jinan)	Aug 2026
Shandong University Shandong–Hong Kong–Macao Forum on Mathematics and Its Interdisciplinary Applications 2026 (Jinan)	Aug 2026
Mathematical Control Theory Conference: The 7th Symposium in Memory of Professor Xunjing Li (Huzhou)	Jul 2026
International Conference on Optimal Control and Machine Learning (Guiyang)	Jul 2026
Numerical Analysis in Artificial Intelligence (Guangzhou)	Jun 2026
Quantitative Finance Conference (NUS, Singapore)	Jun 2026
Workshop on Stochastic Control, Financial Technology, and Machine Learning in Conjunction with the 60th Birthday Celebration of Prof. Xunyu Zhou (Hong Kong)	Dec 2025
The 6th ACM International Conference on AI in Finance (Singapore)	Nov 2025
Control and Optimization Seminar (UConn, Storrs)	Nov 2025
INFORMS Annual Meeting (Atlanta)	Oct 2025
Mathematical Finance and Stochastic Analysis Seminar (HU/TU, Berlin)	Oct 2025
Berkeley–Columbia Meeting in Engineering and Statistics (UC Berkeley, Berkeley)	Oct 2025
SIAM Conference on Financial Mathematics and Engineering (Miami)	Jul 2025
World Online Seminar on Machine Learning in Finance (Online)	Feb 2025
Columbia IEOR Colloquium (Columbia University, New York)	Nov 2024
INFORMS Annual Meeting (Seattle)	Oct 2024
INFORMS Conference on Financial Engineering and FinTech (Hong Kong)	Aug 2024
INFORMS Annual Meeting (Indianapolis)	Oct 2022
11th World Congress of Bachelier Finance Society (Online)	Jun 2022

Posters

NYC Operations Day (New York)	Mar 2025
Columbia AI Summit (New York)	Mar 2025
DSI Financial and Business Analytics Poster Session (New York)	Feb 2025
DSI Financial and Business Analytics Poster Session (New York)	Nov 2022

INDUSTRY EXPERIENCE

Tower Research Capital , Mako/Ace Trading Team	Feb 2023 – May 2023
Quant Trader Intern	New York, NY, USA
- Engineered 20,000+ high-frequency factors for futures and developed a trading strategy achieving a Sharpe ratio above 5. - Designed a stepwise–stagewise factor-selection algorithm that consistently outperformed the firm’s production model and was integrated into the core pipeline.	
Millennium Management , Equity Derivatives Quant Team	Jun 2022 – Aug 2022
Quant Researcher Intern	New York, NY, USA
- Built 2-D PDE solvers for Asian option pricing using Alternating Direction Implicit and Strang Splitting, outperforming Monte Carlo in accuracy and speed. - Implemented production-grade C++ modules supporting continuous/discrete	

averaging, American exercise, local volatility, and Buehler's dividend model.

LevelHead Capital , Quantitative Value Investing	Jan 2018 – Jul 2018
Quant Trader Intern	New York, NY, USA
• Applied deep learning methods such as CNN, LSTM, and GRU models to predict stock movements with over 60% accuracy. • Enhanced value-investing algorithms by introducing new fundamental factors and selecting optimal combinations via machine learning models.	

**TEACHING
EXPERIENCE**

Columbia University	
Teaching Assistant	New York, NY, USA
IEOR E4602, Quantitative Risk Management	Fall 2023
IEOR 4630, Asset Allocation	Spring 2023
IEOR E4732, Computational Methods in Finance	Spring 2022
IEOR E4701-001, Stochastic Models for Financial Engineering	Fall 2021
IEOR E4701-002, Stochastic Models for Financial Engineering	Fall 2021
IEOR 4524, Analytics in Practice: MSBA Capstone	Spring 2021
IEOR 4100, Probability, Statistics and Simulation	Fall 2020
IEOR 4101, Probability, Statistics and Simulation	Fall 2020
IEOR 4707, Financial Engineering: Continuous-Time Models	Spring 2020
IEOR 4735, Structured & Hybrid Products	Fall 2018

**PROFESSIONAL Referee
SERVICE**

Operations Research
Mathematics of Operations Research
SIAM Journal on Control and Optimization
Quantitative Finance
Journal of the Operational Research Society
Mathematics and Financial Economics
IMA Journal of Management Mathematics
Digital Finance
Neural Information Processing Systems (NeurIPS)
International Conference on Machine Learning (ICML, Silver Reviewer)
AAAI Conference on Artificial Intelligence (AAAI)
ACM International Conference on AI in Finance
NeurIPS Workshop on Generative AI in Finance

Session Chair

International Conference on Optimal Control and Machine Learning	Jul 2026
The 6th ACM International Conference on AI in Finance	Nov 2025
INFORMS Annual Meeting	Oct 2024
11th World Congress of Bachelier Finance Society (Online)	June 2022
